

ADENIJI ADEWALE JOHN

FRONTEND DEVELOPER

Lagos, Nigeria • +234 902 564 2189 • adewalejohn688@gmail.com • github.com/adewale90256

PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of experience building responsive, scalable, and user-focused web applications. Proficient in React.js, JavaScript, TypeScript, Tailwind CSS, Next.js, and REST API integration. Experienced in building reusable components, integrating backend services, managing application state, optimizing performance, and translating designs into production-ready interfaces. Comfortable collaborating with designers and backend developers and continuously developing full-stack capabilities.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+), TypeScript

Frontend: React.js, Next.js, React Native, Tailwind CSS, Bootstrap, React Hooks, Context API, React Router

Backend & APIs: Node.js, REST APIs, API Integration, Backend Development, NestJS (Learning)

Tools: Git, GitHub, Vercel, Fetch API, Axios

Development: Responsive Design, Component-Based Architecture, State Management, Cross-Browser Compatibility

PROFESSIONAL EXPERIENCE

Frontend Developer | CyberPunk

Lagos, Nigeria | April 2025 – Present

- Develop responsive and user-friendly interfaces for a hospital management dashboard using React.js.
- Integrate frontend pages with backend REST APIs for authentication, logs, alerts, and other application services.
- Improved application performance by approximately 45% through frontend and component optimization.
- Translate Product and UX designs into reusable, maintainable React components and responsive interfaces.
- Implement asynchronous API operations with appropriate loading, error, and success states.
- Ensure cross-browser compatibility, mobile responsiveness, and consistent user experience across devices.
- Collaborate with backend developers to troubleshoot integration issues and support frontend deployment.

Frontend Developer | Upwork Contractor

Remote

- Build clean, responsive, and reusable interfaces using HTML, CSS, Tailwind CSS, JavaScript, and React.js.
- Develop dynamic single-page applications with React.js and React Router.
- Integrate external and backend APIs using Fetch API and Axios while handling loading, error, and success states.
- Manage global application state such as authentication, themes, and shopping cart functionality using Context API and React Hooks.
- Create modular components and maintainable frontend architecture for scalable applications.
- Optimize interfaces for mobile devices, performance, and cross-browser compatibility.
- Communicate with clients and development teams to align frontend behavior with backend APIs and business requirements.
- Support deployment and frontend-backend integration throughout project delivery.

SELECTED PROJECTS

Venix Studio — Clothing Brand

clothing-brand-lilac.vercel.app/

Modern clothing brand website focused on presenting fashion products through a clean, responsive, and engaging user interface. Built reusable components and responsive layouts for a polished customer experience.

Tech: React.js, Tailwind CSS, JavaScript, React Router, Lucide React, Git, GitHub, Vercel

Gadget Store

gadget-stores-eta.vercel.app/

Responsive technology and gadget store interface for showcasing products and creating a smooth shopping experience. Demonstrates component-based architecture, product presentation, routing, and responsive UI development.

Tech: React.js, Tailwind CSS, JavaScript, React Router, Lucide React, Git, GitHub, Vercel

LaslesVPN

adewale90256.github.io/LaslesVpn/

Responsive VPN landing page presenting product features, service plans, and pricing information with interactive sections and responsive layouts.

Tech: HTML, CSS, Tailwind CSS, JavaScript, React.js, AOS Animation, Git, GitHub
